

	airbag		Stored gas inflator		Seat belt pretensioner		SRS control unit		Pedestrian protection active system
	Automatic rollover protection system		gas strut and triggered pre-loaded spring / pre-loaded spring		High strength zone		Zone requiring special attention		
	Battery low voltage		Ultra-capacitor, low-voltage		Fuel tank		Gas tank		Safety valve
	Battery pack, high-voltage		High voltage power cable		High voltage device that disconnects high voltage		Fuse box disabling high voltage		High voltage ultra-capacitor
			Low voltage device that disconnects high voltage						

## 1. Identification/recognition

The lack of engine noise does not mean that the vehicle is switched off. The vehicle can move without making a noise and can restart instantly provided it has not been fully switched off.

## 2. Immobilisation/stabilisation/lifting

## 3. Disable direct hazards / safety regulations

1

2

3

4

4

## 4. Access to the occupants

Toughened glass

Laminated glass

## 5. Stored energy/liquids/gases/solids

400 V Li-ion

12 V

If coolant escapes from the battery cooling system, there is a risk of a thermal reaction in the high-voltage battery. Monitor the temperature of the high-voltage battery!

## 6. In case of fire

Lithium-ion batteries may self-ignite or reignite once the fire has been extinguished. Monitor the temperature of the high-voltage battery!

7. In case of submersion

Remove the vehicle from the water then refer to section 3, Disable direct hazards / safety regulations

8. Towing /transport/storage

9. Important additional information

10. Explanation of pictograms used

Deactivate the hands-free key

Bonnet

Use water to spread the fire

Warning: electricity

Explosive

Corrosive

Dangerous to human health
